South Side wins, 79-63, takes City title

Outclasses Barringer for 9-1 mark

We, at South Side, have a great variety of sports. We have won games and lost games, but when we are defeated, we still hold our heads high with pride. We know that we didn't lose because of a lack of effort.

The players, band, cheerleaders, twirlers, and enthusiastic spectators, are just *fingers* on the great *hand* of sports and sportsmanship. The coach represents the brain that directs the action behind these fingers.

When each finger does its full share, that's real team work, and we can win *hand over fist*. On the other hand, if a single finger lays down on the job, the hand becomes a *handicap*. We South Siders know this, and we would never allow it to happen. We have good co-operative teams—South Side Teams.

To the G. O.

At the end of every term the election fever hits South Side. The school and students become decorated with campaign posters of every size, shape, and style imaginable. But beneath all this glamor and excitement a very democratic event is about to take place, the election of the officers of the General Organization. The G. O. has a hand in many different and important activities at South Side. The tradition of campaign speeches and

posters was started many years ago and has been handed down from class to class.

The officers of the G. O. are elected directly by the students, who raise their hands in democratic vote to select the candidate of their choice. When the new term rolls around, the newly elected officers take their places to face the huge tasks before them.

The G. O. as a whole is basically a student government which runs the clubs, student council, safety patrol, and many other things at South Side. It consists of a president, vice president, secretary, and senators from every homeroom.

This organization gives the students a hand in the affairs at South Side, it also teaches them to mix socially,

accept responsibilities and carry them out in a business like manner.

We only hope that the future officers and members of the G. O. will handle the affairs of our school in a manner which will equal the fine record set by the previous members of that wonderful student government, our GENERAL ORGANIZATION.

ALWAYS NEAR AT HAND

*"Stretch a hand to one unfriended,
And thy loneliness is ended."*

TO THE FACULTY

These are the *hands* of our teachers who have so patiently guided us throughout our four years. Whenever we have had any mis-giving concerning our future, they have always been available to aid us. They have taken the time and diligence to consider us as individuals in terms of our own abilities, interests and future aims. Under their *Guiding hands* we have developed whatever natural aptitudes we have for leadership. They have showed us how to follow the sound leadership of others. It is with genuine esteem that we, the present graduating classes, clap our hands in tribute to those to whom we owe so much.

FAREWELL

*"When hands are linked
That dread to part,
And heart is met
By throbbing heart —
Oh, bitter, bitter is the smart
Of them that say farewell."*
